This is to provide your Board with the bi-monthly report on the status of transitioning to the new LAC+USC Medical Center (LAC+USC). This is a full monthly report with trends to include the period of December 1 to 31, 2008.

Key indicators are summarized as follows:

Census Trending – ADC includes Psychiatric & Newborn Patients

The Average Daily Census (ADC) from December 2008 was 525 out of 671 licensed beds, an estimated 76% utilization rate (78% occupancy). This is an increase from an ADC of 491 for the prior month. The census for Medical/Surgical (Med/Surg) is at capacity, an estimated 94% utilization (96% occupancy) during the week of January 18, 2009. Census in specialty areas continues to improve. Detailed analysis of specialty bed trends will be provided in the next report as directed by your Board.

Diversion Data

Emergency Department (ED) saturation diversion averaged 40% for the month of December 2008 which is a decrease of 10% from the month of November 2008. There continues to be no diversion to trauma patients. Based on the Base Hospital Logs, an average of 1 patient per day is diverted from LAC+USC during the period that ED diversion is requested by the hospital.

In response to your additional request related to Harbor-UCLA Medical Center (Harbor), an average of 2 patients per day are diverted from Harbor during the period that the ED is on diversions, as reflected by an analysis of the Base Hospital Logs.

Your Board also raised questions regarding diversion, central base station, specialty services and residency training which will be addressed in the next bi-monthly report.

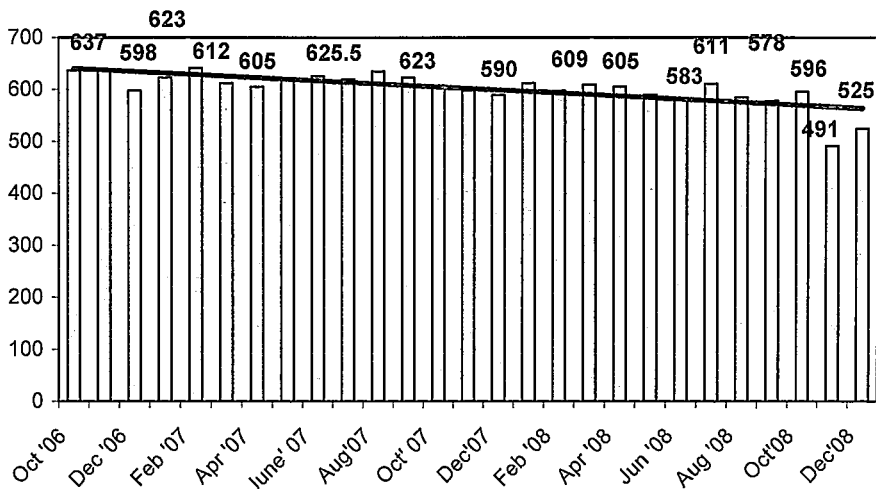

If you have any questions or need additional information, please contact me or Carol Meyer, Interim Chief Network Officer at (213) 240-8370.
